Half-Pipe

Brighton Tru-Edge can supply 2”, 3”, and 4” half-pipe coils for both heads and cylinders. This pipe can be supplied loose, fit and tack welded, or fully welded to the head or cylinder. Half-pipe coils can be purchased in stainless steel, carbon steel, and nickel alloys.

Dimple Jacket

Brighton offers dimple jacket for heads and shells. These dimple jackets can be manufactured as loose panels, fit and tacked, or fit, welded and fully tested including nozzles to your specifications.

Dimple jacket can be formed from 7, 10, 11, 12, 13, and 14 gauge stainless steel, carbon steel, and other exotic alloys.
